Performance of Measurement

System of monthly review will be there

Monthly Review I	Status of goals set to be checked
Monthly Review II	Follow up on the previous review report
Monthly Review III	Specific feed back from area of improvement
Monthly Review IV	Reviewing improvement action plan
Monthly Review V	Feedback from Student and Parents.

ACTIVITY CALENDER SESSION 2023-2024

APRIL-2023

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
						1 Activity(Class-Prep1)
2	3	4	5 Activity(Class-Prep2) Spl.Ass(Lord Mahavir Jayanti)	6 Spl.Ass(Guru Nabha Das Jayanti)	7 Good Friday	8
9	10 Activities (Class-1st to 3rd)	11 Activities(Class-2nd to 4 th)	12 Activity(Class-2 nd)	13 Spl.Ass(Baisakhi & Dr. BR. Ambedkar Jayanti)	14	15 Activity(Class-3 rd Quiz Competition 4 th)
16	17 (Quiz Competition 4 th)	18 Activities(Nur to 1st) Meeting for Heritage Club	19 Activities(Nur to Prep-II) Metting for Buddy Club	20 Activities(Class-2nd)	21 Activity(Class-Nur) Spl. Ass(Lord Parshuram Jayanti, metting for ECO Club.	22 Ramzan/Eid- UL-Fitar

Assessment

Purposes of Assessments:

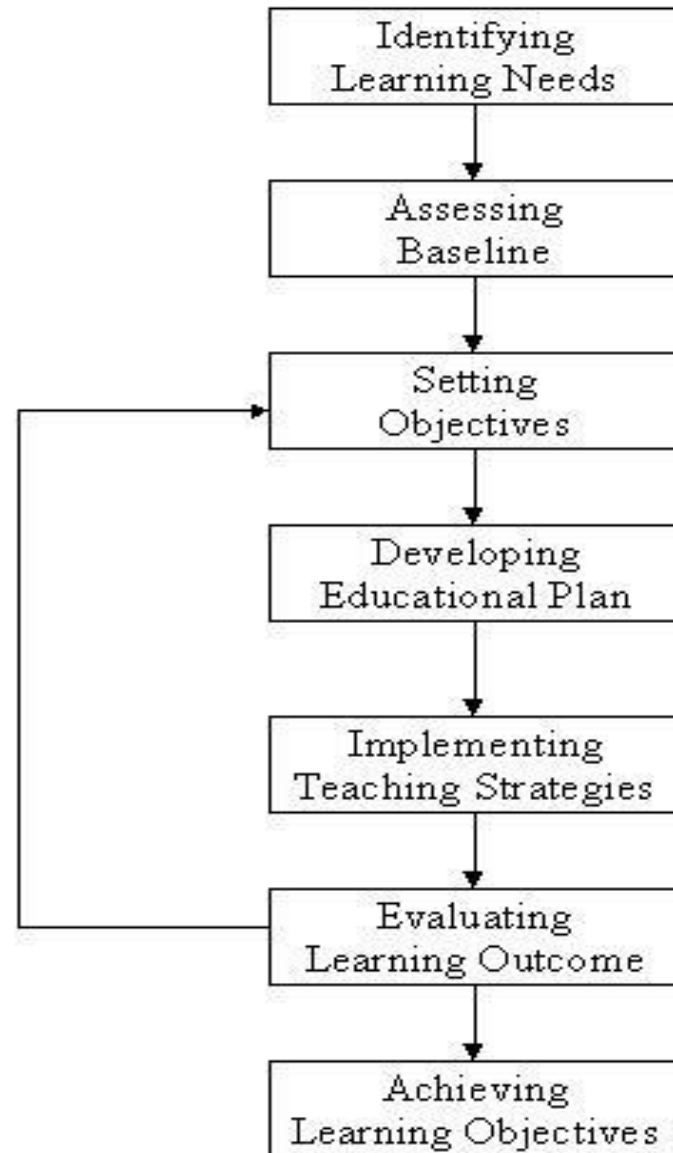

- A) To identify the children's learning needs;
- B) To help the teacher plan educational programmes for the children;
- C) To indicate which specific educational objectives have or have not been achieved;
- D) To serve as continuous evaluation.

Process in Assessment:

- A) Identifying the children's learning needs;
- B) Assessing the children's baselines in specific subjects and establishing their pre-requisite skills;
- C) Setting learning objectives;
- D) Implementing curriculum programmes;
- E) Evaluating the effectiveness of curriculum programmes & Making adaptations to curriculum programmes.

Assessment Flow Chart

The following flow chart will be use to illustrate the assessment process.

Methods of Assessment

When evaluating the children's performance in terms of specific criteria set, the teacher will analyse the curriculum and the method of instruction used before he /she can develop appropriate assessment to identify the children's learning needs.

The assessment will be in the form of checklists, paper-pencil tests interviews or observation of the children engaged in activities. They should be individually administered both at the beginning and at the end of the teaching period, so that the children's progress can be measured. The assessment results will then reflect the children's strengths and weaknesses. Assessment is thus an important part of the teaching process.

Focus on Entire Student learning activities.

Value education has been mainly expressed in terms of development of values and virtues like honesty, self-control, respect, responsibility, loyalty for personality/character development of the individual per se without situating them in the prevailing social, cultural realities and conditions. Values should not be treated as ideal concepts but as 'empowering tools' which are helpful in meeting the challenges of the contemporary social world-be it religious fundamentalism, environmental degradation multi-cultural conflicts, misuse of science and technology, inequalities, ill effects of mass media, globalization, commercialization and so on.

From broader perspective, the aim of value education is linked with the fundamental question of what education itself is meant for. From individual's perspective, the purpose is to enable students achieve personal fulfillment for success in life and work. From societal perspectives, education aims to prepare young people to contribute to the society/nation and world around. In neither case however, education is to be perceived as an outcome but as an experience in itself, which will enable student to live safe, healthy and fruitful life and become responsible citizens who make positive contributions to the society.

SYSTEM OF ASSESSMENT & EXAMINATION (CLASS I - X)

	TERM – 1 (1 st half of the session) 20 marks Periodic Test+80 marks for Half Yearly Exam		TERM – 2 (2 nd half of the session) 20 marks Periodic Test +80 marks for Half Yearly Exam	
ENGLISH	PA 20 marks	Yearly Exam	PA 20 marks	Yearly Exam
HINDI	-Periodic Test 10 marks	Written Exam for 80 marks	-Periodic Test 10 marks	Written Exam for 80 marks with syllabus coverage as below:
PUNJABI				Class I to V: entire syllabus of 2 nd term.
MATHEMATICS	-Notebook submission 5 marks at term end		-Notebook submission 5 marks at term end	Class VI: 10% of 1 st term covering significant topics+entire syllabus of 2 nd term.
SCIENCE				Class VII: 20% of 1 st term covering significant topics+entire syllabus of 2 nd term.
SOCIAL SCIENCE	-Subject Enrichment 5 marks at the term end		-Subject Enrichment 5 marks at the term end	Class VIII: 30% of 1 st term covering significant topics+entire syllabus of 2 nd term
COMPUTER				Class IX & X: Entire syllabus

Subject Enrichment Activities

These are subject-specific activities aimed at enhancing the understanding and skill of the students. These activities are to be carried out throughout the term; however, they should be evaluated at the term-end.

- ***Languages:***

Aimed at equipping the learners to develop effective listening and speaking skills. The language teachers will devise their own methods and parameters for assessment of the language.

- ***Mathematics:***

For the activities in mathematics, Practical work and activities in Maths will be undertaken as suggested by the NCERT syllabus and textbooks.

- ***Science:***

Practical work and activities in Science will be undertaken as suggested by the NCERT Syllabus and textbooks.

- ***Social Science:***

Map or the project work will be undertaken as suggested by the NCERT syllabus and textbooks.

Grading Scale for Scholastic Areas (Classes I to VIII) (School will award grades as per the following grading scales)		Grading Scale for Scholastic Areas (Classes IX to X) (School will award grades as per the following grading scales)	
<u>Mark Range</u>	<u>Grade</u>	<u>Mark Range</u>	<u>Grade</u>
91-100	A1	91-100	A1
81-90	A2	81-90	A2

Institutions Goals

Develop School Resources

Climate change is now a great global challenge. As in other places, DOLPHIN PUBLIC SCHOOL is getting ready to take collaborative actions to rise to this challenge. In this connection, schools are urged to formulate and put in place our school-based environmental policy with an aim to enhance students' environmental awareness, develop their environmentally friendly attitude, and promote green practices and environmental education. Schools will join hands with staff and students to implement various measures to use resources effectively, and avoid and reduce waste.

Inter- personal relationship with stakeholders

Annual Goals	<ul style="list-style-type: none">• Formulation of School Environmental Policy• Economy in Use of Electricity• Save Water• Parents –Teacher Meeting
	<p><i>Formulation of School Environmental Policy:</i></p> <ol style="list-style-type: none">1.Measures to Save Resources and Reduce Expenses2.Economy in Use of Paper/Envelope <ul style="list-style-type: none">• Use of blank side of used paper for drafting

Strategies

Print on both sides of paper.

- Use of recycled paper Minimize photocopies.
- Do not use envelopes for unclassified documents.
- Communicate within and outside school by e-mail (including exchange of information, issue of invitation.
- Use the format of electronic files to keep and release school information.
- Urge staff to use their own cups instead of paper cups Check the settings before photocopying or printing.
- Use of photocopies and printers equipped with double-sided printing function
- Use of old sets of documents for re-circulation.
- Use of blank side of used paper to make note pads.
- Encourage students to keep their old exercise books for paper recycling.

Economy in Use of Electricity

Lighting Installation

- Use compact fluorescent lamps (LED) where practicable Modify group lighting switches to individual switches
- Keep all windows, light

bulbs and light fittings
clean to maintain optimum
lighting performance

- Maintain only those lighting which are essential for safety, security or other specific purposes in areas that are frequently occupied

Save Water

- To Teach students not to play with water in the toilet Avoid flushing the toilet unnecessarily.
- Irrigate plants in the morning or in the evening to avoid rapid evaporation under the id day's scorching sun.
- Arrange for prompt repair to any dripping tap or leaking water main found.

Guidelines for Implementation of the Plan

- Ensure gradewise, subjectwise and unitwise detailing of the innovative pedagogy to be used through preparation of structured lesson plans.
- Develop content related to art, sport and ICT with education, with the help of concerned teachers as well as Art, Sports and ICT teachers.
- Ensure dissemination of plan to all teachers and all concerned by June every year.
- Ensure proper implementation of this plan.
- Monitor the progress at least on a monthly basis.
- Reach out to the Board for any training needs.
- Maintain records of the preparation of the plan, and the progress in the implementation.

WHOLE SCHOOL RUBRIC					
ELEMENTS		LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
TEACHING & LEARNING	Personalized Learning	Knowledge and understanding of how students learn is demonstrated by a minority of teachers	Knowledge and understanding of how students learn is emergent in teacher practice. Individual and/or teams of teachers are planning new approaches to teaching and learning.	Knowledge and understanding of how students learn is demonstrated by the majority of teachers. Most teachers have developed and implemented practices that put students at the centre of the learning process.	Knowledge and understanding of how students learn is evident in the practice of all teachers through a broad repertoire of student-centred teaching strategies and assessment methods
		Initial work is being undertaken to gather data on the individual learning styles of students at a year level	Data on the individual learning styles of students has been used to inform planning for the way in which teaching practices can be aligned to the learning needs and goals of individual students.	Pedagogical practice is informed by data and aligned to the learning needs and goals of individual students at certain year levels	Pedagogical practice is aligned to the learning needs and goals of individual students across the whole school
	Curriculum	Curriculum is usually designed by individual teachers based on the year level and associated subjects.	Teachers plan together to provide consistency of curriculum that reflects the stages of learning and student backgrounds and addresses the needs of particular cohorts of students.	Curriculum planning and practices reflects the achievements of students in relation to the standards for some domains, stages of learning and student backgrounds and perspectives.	All curriculum planning and practices analyses and addresses the full range of learning needs of individual students providing coherence, balance and continuity across all of the domains.
		Domains are connected in an ad hoc manner when planning learning experiences.	Domains are being combined when planning learning experiences for students.	Many of the domains are strategically integrated creating quality learning experiences for students.	All domains are interwoven in a sophisticated way in the design and delivery of a cohesive curriculum for all students.
		Curriculum planning and practice for cohorts of students is undertaken as something separated from System Frameworks and the School Strategic Plan.	Any discrepancies between current priorities in the School Strategic Plan and System Frameworks have been identified.	Whole school curriculum planning and practice demonstrates the interconnectedness between the School Strategic Plan, System Frameworks and school improvement.	Whole school curriculum planning and practice is based on the local context and interconnects with the School Strategic Plan and an agenda of continuous school improvement.
	Assessment	Students require structured support to develop the necessary knowledge and skills to manage and monitor their learning.	Teachers provide support for students to monitor and manage their learning.	Students have opportunities to monitor and manage their learning through structured support.	All students are equipped to monitor and manage their learning.
		Assessment for teaching (for, of and as learning) is not explicitly planned. Assessment of learning (summative) remains the focus.	Assessment for teaching (for, of and as learning) is being planned with a focus on identification of effective assessment strategies.	Assessment for teaching (for, of and as learning) is planned for at the whole school level and for cohorts of students using a range of data. Parents and students receive regular information on strengths and areas for improvement/future learning.	All teachers use assessment for teaching (for, of and as learning) to provide individualized learning. Learning portfolios enable ongoing information sharing between teachers,students and parents. Evidenced-based valid and consistent judgments are madethrough moderation.
	ORGANISATIONAL STRUCTURES	Current organizational structures all limit flexibility within student groupings and roles and responsibilities of teachers. Student learning and welfare are managed separately.	Current organizational structures are being examined and options are developed and analysed to identify structures that will better support student learning.	Flexible organisational structures are being implemented for aspects of the learning program and/or particular groups of students.	Organizational structures enable learning to happen in a range of places at a range of times through flexible use of people, IT and spaces.
Learning spaces are confined to the classroom and there is limited use of ICT to support student learning.		A needs analysis informs future developments of physical and electronic learning environments.	Some spaces have been reorganised to create physical and electronic learning environments that support student learning.	All physical and electronic learning environments have been created that complement diverse student learning.	
PERFORMANCE & DEVELOPMENT CULTURE	Professional learning is fragmented and usually short term.	Protocols have been established to increase the effectiveness of professional learning including the importance of reflection on practice.	Teams of teachers plan for learning opportunities that will meet their needs as a group.	Professional learning in collaborative teams focuses on exploration and sharing of learning and teaching practices to continually improve student learning.	
	Professional learning focuses on individual teacher needs rather than agreed school priorities and processes.	School curriculum planning has begun to identify needs and processes for more effective professional learning within the school context.	A schedule of professional learning is established that best meets the needs of all teachers by focusing on their learning needs and grouping teachers accordingly.	The school fosters a culture that values and supports ongoing professional learning, risk taking and focused evaluation	
COMMUNITY BUILDING & PARTICIPATION	The leadership team is exploring how to incorporate the System Frameworks in their school and beginning to raise awareness of these initiatives with staff and school community	The leadership team is building its depth of knowledge of the System Frameworks and beginning to structure opportunities for staff and school community to engage with these initiatives to facilitate whole school curriculum planning.	The leadership team has a deep understanding of the System Frameworks and has created structures and processes that support staff and school community to implement these initiatives.	The leadership team has a meta-view of the System Frameworks and provides clear direction for improving student learning that involves all staff, students and relevant aspects of the local community.
